

Muaaz Bin Riaz

MERN Stack Developer (Internship Applicant)

Rawalpindi, Pakistan

Email: muaazbinriaz2000@gmail.com | Phone: 0334-0819120

Profile

Motivated and enthusiastic MERN stack developer seeking a full-time on-site internship. Focused on learning through real project work and contributing effectively to a development team.

Technical Skills

- JavaScript (ES6+), HTML, CSS
- Bootstrap, Tailwind CSS
- React.js, Redux Toolkit Query
- Node.js, Express.js
- MongoDB (CRUD operations)
- Git, GitHub, VS Code, npm
- Deployment: Vercel, Railway
- Responsive Design, Debugging

Project**MERN Trello-Style Application**

- Built a full-stack task management application using MongoDB, Express.js, React.js, and Node.js.
- Implemented boards functionality with the ability to create boards and manage lists and cards.
- Added drag-and-drop support for notes and lists, along with filtering and sorting features.
- Implemented CRUD operations, authentication and authorization, and list deletion with related cards.
- Integrated image upload functionality using Cloudinary.
- Developed RESTful APIs and deployed the application using Vercel and Railway.
